3M Ear Defenders Peltor For Helmet

Produktnummer: 3MX4P3E

The 3M™ PELTOR™ X Series Earmuffs are designed for comfort and excellent noise reduction during tough jobs where loud sounds are frequent. Available in over the head, hard-hat-attached models, and behind the neck models, they are designed to adapt the requirements of the work. Featuring an adjustable cup that angles to help create a customized fit for the worker. Electrically insulated options available.

Key Features

Depending on the model, noise levels are reduced by 32–33 dB, tested in accordance with EN 352:2020.

Available in electrically insulated (dielectric) versions for headband and P5 helmet-mounted models.

Color coding makes it easy to identify the level of hearing protection.

Innovative sealing ring and ear cushion technology provide excellent low-frequency attenuation in a streamlined design.

Proprietary 3M ear cushion foam technology delivers an effective acoustic seal and reliable protection.

The dual-headband design helps dissipate heat, while the internal stainless-steel construction ensures consistent pressure and a comfortable fit for up to 8 hours of wear.

Engineered to optimize weight distribution and balance for outstanding comfort.

Durable ABS plastic ear cups offer high strength and impact resistance.

Soft outer ear cup coating made from thermoplastic polyurethane (TPU) protects against wear and impact.
