

Prefilter SR 221 1=5pcs /package

Produktnummer: SUNH02-0312

Protects particle filter against early clogging of particles-

The SR 221 pre-filter is a coarse filter designed to capture larger particles, thereby extending the service life of the SR 510 P3 R and SR 710 P3 R particle filters, as well as the SR 299-2 ABEK1-Hg-P3 R and SR 599 A1BE2K1-Hg-P3 R combined filters.

The pre-filter is placed in the pre-filter holder and then snapped onto the particle filter or combined filter.
