

3M Mask Half Face Silicone (medium) EN 140: 1998

Produktnummer: 3M7502

The 3M™ Half Facepiece Respirator 7500 Series is designed for ultimate comfort, featuring advanced silicone material to help provide a soft, comfortable feel on the face and the 3M™ Cool Flow™ Valve to help make breathing easy. All sizes of the facepiece use the 3M™ Bayonet Connection system, allowing the user to connect to a broad range of 3M™ Cartridges and Filters to help protect against gases, vapors and particulates.

Key Features

- Advanced silicone material for increased comfort and durability
- 3M™ Cool Flow™ Valve to help make breathing easy and reduce heat and moisture build-up inside facepiece
- Dual-mode head harness adjusts easily for standard or drop-down mode Approvals NIOSH approved with 3M™ Cartridges 6000 Series, 3M™ Particle Filters 2000, 2200, 7000 or 5000 Series, or 3M™ Dual Airline Supplied Air Systems.
