3M Aura dustmask, FFP3, with valve, 9332+ (330/CV)

Produktnummer: 3M9332-BULK

Box of 330 pcs

3M™ Aura™ Particulate Respirators 9300+ Series has an ergonomic, flat-fold, 3-panel design featuring a low breathing resistance filter media. The respirators feature an innovative chin tab for easy adjustments and an embossed, sculpted upper panel to help reduce eyewear fogging.

Use 3M™ Aura™ Particulate Respirators 9300+ Series for comfortable protection against dusts and mists in a wide variety of industrial applications and other hazardous environments. The 9300+ series offers FFP1, FFP2 and FFP3 protection and allows you to talk and work in comfort. The 3-panel design allows for greater facial movement, while the sculpted, low-profile style of the embossed upper panel creates an effective seal, reduces eyewear fogging and improves eyewear compatibility. The low resistance filter technology helps you breathe easily and the innovative chin tab allows you to make simple adjustments.

The 3M™ Aura™ Particulate Respirators 9300+ Series meet the requirements of European Standard EN 149: 2001+ A1:2009, filtering facepiece respirators for use against particles. They provide effective respiratory protection for use in industries where workers will be exposed to solid (dust) particles and/or non-volatile liquid particles.
