

3M Safety Helmet Peltor G3001 1000v, White

Produktnummer: 3MG3001DUV1000V-VI

-Key Features-

Safety helmet with excellent ventilation and a wide field of vision, designed for use in demanding environments.

The 3M™ Uvicator™ indicator shows when the helmet has been exposed to more UV radiation than it is designed to withstand, indicating when replacement is required.

Smooth, rounded design helps prevent helmet components from snagging on cables or branches.

Ventilation openings are distributed over a larger area to maximize airflow and enhance wearer comfort.

The head harness can be rotated 180° to improve visibility when working in confined spaces.

Short brim provides improved upward visibility.

Options available for custom printing of company names and logos.

Replaceable leather or plastic sweatband.

Optional mining lamp holder available.

Approved for use at temperatures down to -30°C.

Available in eight standard colors: white, yellow, blue, red, green, orange, black, and high-visibility green.
