# Waterproof chemical suit

Produktnummer: AAL140-4200

This coverall protects against dirt, dust, and oil. It is made of a durable material, yet it remains soft and easy to move in.

The Kollsnes coverall has a plastic zipper in the front, concealed by a storm flap fastened with Velcro. The hood has drawstrings, and the sleeves can be adjusted with metal buttons. The coverall also features an internal adjustment at the waist, as well as stitched and welded seams.

The fabric used for the coverall has been tested against a range of chemicals, but the coverall itself is not certified as chemical-resistant.

EN 343

Manufacturer website: Kollsnes kjeledress
