Gloves Tegera 9113

Produktnummer: TEG9113

TEGERA PRO 9113 Resists Both Water and Cold

A glove designed to protect against both water and cold. Featuring Ejendals' innovative Microthan®+ and Aquathan® technologies, this glove is ideal for demanding working conditions. It is waterproof and insulated with 100 g Thinsulate™ winter lining for excellent warmth. The diamond-patterned palm provides outstanding grip.

The glove is ergonomically designed with a reinforced index finger, reinforced seams, reinforced fingertips, pre-curved fingers, and a specially designed thumb for enhanced comfort and durability. Suitable for general-purpose work in harsh environments.
