

Safety Goggle Uvex Ultrasonic Welding

Produktnummer: UVE9302-045

The combination of hard and soft material components used in the uvex ultrasonic pairs high mechanical strength with optimum wearability. This wide-vision goggle can be worn for long periods without causing any pressure problems. The flexible soft component allows it to adapt to each individual face for a snug fit, ensuring comprehensive side protection around the eye area, even when worn over prescription spectacles. The uvex ultrasonic offers outstanding ventilation, ensuring a pleasant interior environment that does not cause irritation. This top goggle also features a sporty design, panoramic field of vision and quick and easy lens replacement. The welding safety version of the goggle has a practical flip-up lens that is very easy to replace.

General features

- Wide-vision welding safety spectacles with a sporty design, also suitable as overspecs
- Lenses can be replaced
- Perfect colour recognition thanks to uvex sunglare filters
- New filter technology combines UV and IR protection
- Colour of frame: black, green
- Clear PC lens, additional grey PC lens

Comfort features

- Practical flip-up filter, which is easy to replace
- Filter extremely scratch-resistant on both sides, minimising burns due to welding sparks (uvex infradur)
- Anti-fog coating on the inside, extremely resistant to chemicals and scratches on the outside (uvex supravision excellence)
- Broad, panoramic field of vision
- No problems with pressure when worn for long periods, due to a combination of hard and soft components

Protection features

- Certified in line with EN 166 (personal eye protection), EN 169 (welding protection) and EN 170 (UV filters)
- Welding protection level: 5 (filter)
- Labelling of frame: W 166 34 B CE
- Labelling of lens: 2-1,2 W 1 B KN DIN CE
- Labelling of filter: 5 W 1 CE
- Reliable UV 400 and IR protection (flip-up lens)
- High mechanical strength (B: 120 m/s)
