

# HL400 Lite dispenser (AM) with 400 pairs Laser Lite EU / AU

Produktnummer: HW1006205-AM

The HL400™AM dispensers for earplugs are designed to meet today's safety needs. The turn knob and catch tray are treated with an antimicrobial additive, making earplug dispensing more hygienic. The antimicrobial additive releases slowly to reduce the bioburden on the turn knob. This way the product remains clean and does not require extra cleaning, thus, driving cost savings. This product does not protect users or others against disease-causing organisms.

- Easy to use – workers can access earplugs quickly with easy twist knob
- Available with prefilled canister of 400 pairs of earplugs
- Compatible with all Howard Leight™ disposable earplugs MAX®, MAXLite®, Laser Lite®, FirmFit®, and Bilsom 303 S/L
- Easy to install – Universal hole positions eliminate the need to drill new holes and can be placed on flat surfaces
- Durable, recyclable plastic canister – with multiple refill options:

Replace the empty canister with another 400 pair prefilled canister.

Refill the empty canister as needed with a traditional 200 pair refill zip-top bag.
