Disposable Coverall Microgard 2000 Standard, Type 5/6

Produktnummer: MIC2000-111

Superior, breathable microporous laminate suit, perfected for industrial applications.

- **Specialized protection:** The AlphaTec 2000 STANDARD Bound - Model 111 grants wearers moderate chemical protection*, resisting liquid and particulate biological hazards (including radioactive particulates**)
- **Added defenses:** This protective body suit also meets EN 14126 and ASTM F1670/1671 standards for bloodborne pathogen protection and DIN 32781 requirements for pesticide resistance.
- **Advanced breathability**: The use of microporous polyethylene laminate nonwoven fabric makes it water vapor-permeable, reducing heat stress.
- **Assured antistatic capabilities:** In addition, this protective suit satisfies EN 1149-5 antistatic standards.
- **Reduced cross contamination risks:** Low-linting fabric lessens cross contamination risk in critical areas.
- **Limited allergy and surface defect risks:** Latex- and silicone-free by design, risks of Type IV latex allergies or contaminant transfer to metal when spray-painting are minimized.
- **Enhanced fit and features:** This chemical-protective suit' s optimized fit and finger loops enhance comfort and user-friendliness, while a three-piece hood provides added protection and a two-way front zipper with resealable storm flap enhance practicality

*CE Category III Type 5/6 protection **in accordance with EN 1073-2 standards
