

Uvex Safety Helmet Pronamic Yellow

Produktnummer: UVE9735134

The uvex pronamic alpine provides the ideal combination of protection and dynamics. Uvex's development goal was to seamlessly integrate all the functional elements (ventilation, Mips® brain protection system) into the design of the helmet. Another essential feature was comfort, so that you can optimally adjust the helmet to most head shapes.

General features

- Euroslot adapters (30 mm) on the side for attaching earmuffs
- Four retaining clips for attaching head torches or goggles
- Additional elements for attaching our extensive range of accessories
- Forked chin strap EN 12492 included as standard
