Insole Sorbothane Full Strike

Produktnummer: SOR70244FS

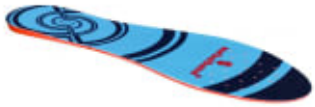

Sorbothane Full Strike – Full-foot shock absorption.

This insole provides superior cushioning across the entire foot. With a slim profile — only 3.5 mm at the forefoot and 7 mm at the heel — it fits easily into most safety boots.

The insole is covered with Coolmax® fabric, which ensures optimal breathability and effectively wicks away moisture to keep your feet dry and comfortable.

Sorbothane insoles are lightweight and feature trim-to-fit guidelines, making it easy to cut and adjust for a perfect fit.
