

uvex pheos guard spectacles

Produktnummer: UVE9192180

The uvex pheos is not just a pair of safety spectacles: with its modern, fashionable looks, the uvex pheos is a good-looking accessory at work. Innovative safety spectacle technology lies behind the attractive design: The heart of the glasses is the duo-spherical lens that does not just offer a wide field of vision, but is also long-lasting anti-fog on both sides and features a scratch-resistant interior thanks to the high-quality uvex supravision coating technology. A headband and frame can be added to all uvex pheos spectacles to make the uvex pheos guard. This combination not only makes the eyewear suitable for working at height or in confined spaces, it also improves compatibility with other PPE and creates a closer seal to further protect from particle ingress and splash.

General features

- Modern safety spectacles with a fashionable design and duo-spherical lens technology
- 100 % metal-free
- Set consisting of fitted extra frame with soft padding and adapted headband
- Frame colours: black, grey
- PC lens, clear

Comfort features
