3M™ Speedglas™ Indre beskyttelsesglass 9100X, 528045

Produktnummer: 3M528045

Highlights:

- Protects the welding lens
- Replace the 3M™ Speedglas™ inner protection plate when it becomes scratched or too dirty to clean
- Designed for use with 3M™ Speedglas™ welding helmets and lenses
- Clean regularly with a lintfree tissue or cloth

Description:

3M™ Speedglas™ Inner Protection Plate is a replaceable spare part for 3M™ Speedglas™ welding helmets and is designed to protect the welding lens.

3M™ Speedglas™ Inner Protection Plate is a replaceable spare part for 3M™ Speedglas™ welding helmets, protecting the welding lens from sparks and spatter. Replace it when your existing 3M™ Speedglas™ inner protection plate becomes damaged or too dirty to clean. Clean regularly with a lintfree cloth, such as the 3M™ Cleaning Wipe. For maximum safety and comfort, make it a habit to inspect your equipment regularly for worn or damaged parts.

Details:

- Recommended Application: Metalworking, Metal Repair, Grinding, Welding
- Number of Sensors: 3
- Part Type: Consumable
- Filter Type: Autodarkening
- Product Type: Inner protection plate
- Welding Helmet Compatibility: 9100 Series
