3M™ Versaflo™ Intrinsically Safe Powered Air Turbo

Produktnummer: 3MTR-802E

Highlights:

- Approved against the latest Electrical Standards
- Easy to identify and differentiate from non-IS versions thanks to bright yellow touchpoints
- Comfort is maximised with three user selectable flow rates and controlled airflow
- CE approved
- Compatible with particulate only filters or particulate and gas and vapour combination filters for protection in a variety of environments

3M™ Versaflo™ Intrinsically Safe Powered Air Turbo TR-802E is our respirator approved against the latest Electrical Standards. Approved to Zone 0 requirements it may be suitable for areas where potentially explosive atmospheres are expected and permanent in normal operations.

Use 3M™ Versaflo™ Intrinsically Safe Powered Air Turbo TR-802E for protection when working in hazardous atmospheres. As part of the Versaflo family, when combined with Versaflo headtops, belts, and other accessories our air turbo becomes part of a CE-approved respirator system featuring; multiple speeds, audible and visual alarms, and the ability to work with a wide variety of gas, vapour and particulate filters. Comfort is maximised with three user selectable flow rates and controlled airflow, and it's easy to identify and differentiate from non-IS versions of the Versaflo product family thanks to bright yellow touchpoints. The TR-800 is approved to Zone 0 requirements and so may be suitable for areas where potentially explosive atmospheres are expected and permanent in normal operations.

Details:

- Brands: Versaflo™
- Case Quantity: 1
- Compatible With: 3M™ Versaflo™ TR-800 Series PAPR
- Intrinsically Safe: Yes
- Mounting Type: Belt-Mounted
- Product Series: TR-800
- Product Type: PAPR
- Protection Type: Respiratory Protection
- Recommended Application: Assembly & Mechanical, Liquid Chemical Handling, Manufacturing, Painting
- Recommended Industry: Transportation
- Smallest Saleable Unit: Each

- Net Weight (Metric): 1360 g
