3M™ Versaflo™ Visorholder for overvisor, M-961

Produktnummer: 3MM961

3M™ Versaflo™ Visor Holder for OverVisors, M961, is a visor holder compatible with the 3M™ Versaflo™ OverVisor M967 and the 3M™ Versaflo™ Radiant Heat Cover for 3M™ Versaflo™ MSeries Helmets.

- Visor holder used to attach over-visors and radiantheat protective covers to MSeries helmets
- Specifically designed for use with MSeries helmets
- Made of aluminium

The 3M™ High Heat Accessories comprise the 3M™ Radiant Heat Covers M-973/M-975, 3M™ Gold Over Visor M-967, 3M™ Over Visor Frame M-961 and 3M™ Breathing Tube Cover BT-927. These provide additional radiant heat and spark/molten metal splash protection to the 3M™ Versaflo™ M-300 and M-400 Series Helmets and 3M™ BT-Series Breathing Tubes. The 3M™ High Heat Accessories have been shown to meet the requirements of EN 12941: 1998+A2:2008 when used in combination with the 3M™ Versaflo™ M-300 and M-400 Helmets. Over Visor Frame M-961 meet the following requirements of EN 166:2001 (Personal Eye Protection), EN 170:2002 (Personal eye-protection - Ultraviolet filters) and EN 171:2002 (Personal eye-protection - Infrared filters).
