

PIXA® R Waterproof, Headlamp 450 Lumen (Boost)

Produktnummer: PETE120AA00

Compact, durable, and waterproof headlamp designed for demanding environments. 450 lumens (BOOST mode)

The PIXA was designed to meet the needs of maintenance and industrial professionals. Durable, waterproof, and resistant to certain chemicals, it is designed for intensive and demanding professional use. Convenient, the PIXA can easily be installed on a helmet with the included SLOT ADAPT plate. It's easy to use, with a single selector knob that controls all functions. The rotating selector knob can be used while wearing gloves. Featuring CONSTANT LIGHTING technology, it provides a constant level of brightness. Casting 450 lumens in BOOST mode and three beam types (wide, mixed, and focused), PIXA adapts to a variety of work situations. The PIXA should not be used in a potentially explosive atmosphere. The PIXA comes with three standard batteries and also works with the CORE rechargeable battery, with its HYBRID CONCEPT design.

Description:

Designed for intensive and demanding use by industrial professionals:

- Durable, the lamp is impact resistant (IK08), fall resistant (up to 2 meters), and crush resistant (up to 80 kg)
- Dustproof and waterproof in up to 2 meters of water for 1 hour (IP68) Resistant to certain chemicals (1)

Versatile lighting for a wide variety of situations:

- Headlamp features CONSTANT LIGHTING technology, providing a constant level of brightness throughout the duration of use
- Wide, uniform beam provides comfortable lighting for close-range work
- Two mixed beams for moving
- Focused beam for distance vision
- 10-second BOOST mode can be used at any time for the occasional need for maximum brightness

Easy to use and convenient:

- Single rotating selector knob controls all functions and can be used while wearing gloves
- Selector knob is on the side of the headlamp, so it can be used without dirtying the lens
- Plate allows you to tilt the lamp up or down
- Battery charge indicator allows the user to quickly see the battery level each time it is turned on or off

- When turned off, the lamp automatically locks to prevent it from accidentally turning on
- Rotates 180° to protect the lens during storage or transport
- Symmetrical headband adjustment system makes it easy to adjust the fit on the head
- Headband can be removed and washed
- The SLOT ADAPT plate, included with the headlamp, makes it easy to install on a Petzl professional helmet with a slot
- The PIXA is also compatible with the HELMET ADAPT adhesive plate (available as an accessory) for installing it on a variety of helmet types
- The PIXA comes with three AAA/LR03 batteries and also works with the CORE rechargeable battery (not included), with its HYBRID CONCEPT design
- The lamp detects the energy source and optimizes lighting performance: with a rechargeable CORE battery, the lamp provides more brightness when it is turned on (600 lm in BOOST mode) and throughout the duration of use.
